Cerreta Candy Co.

Sugar Free

confections

Enjoy Cerreta's **"Sugar Free"** confections, boxed and bulk selection, candy bars, individually wrapped caramels, clusters, meltaways, cream centers, caramel corn, hard candy, B.B.Q. sauce and our famous pancake syrup.

The following information only applies to the "Sugar Free" labeled candies.

Ingredients for Sugar Free confections: Hydrogenated Starch Hydroysate, Maltitol, Polydextrose, Sorbitol, Palm Kernal, Oil, Walnuts, Almonds, cocoa powder, cocoa butter, chocolate liquor, butter oil, butter, whole milk, non-fat dry milk, egg whites, lecithin (an emulsifier), calcium caseinate, salt, glycerol lacto, esters, oil of peppermint, vanilla, vanillin (and other artificial flavors), and natural flavors.

Sugar Free Chocolate: The standard of identity for chocolate does not allow any variance regarding sugars, and milk solids. We are very proud of our coating and continue to use the inherent basis for the chocolate standard in Cocoa Butter and Chocolate Liquor. The only changes in the chocolate standard of identity is to take the sugar out of the coating. We have replaced lactose from milk with the creamy texture of Calcium Caseinate, a natural milk protein, and use sweeteners like Sorbitol and Malititol, so the coating is Sugar Free.

***Sugar Alcohols is not a sugar or alcohol, it is a liquid starch derived and processed from corn.**

The Laxative Effect: As in all sugar free products, there may be a mild laxative effect experienced by sensitive individuals. Because Hydrogenated Starch Hydrolysate, Maltitol and Sorbitol are polyols, they metabolize more slowly, which causes a portion of the polyols to remain undigested.

Diabetics: Diabetics may find the Sugar Free products useful in their diets on the advice of their physicians. However, Cerreta's Sugar Free candies cannot be used to counteract the effect of insulin shock.
